Relevant Experience

IT Lead / Systems Administrator @ Ober Mountain

August 2021 – Present // Gatlinburg, TN

- ▷ Oversee daily systems and network operations, ensuring prompt resolution of technical issues.
- ▷ Facilitate major transitions, such as credit card processor migration, to maintain seamless business operations.
- ▷ Develop and implement sales packages using Accesso Siriusware and Passport, optimizing online sales channels.

Flutter Intern @ Fathom Reads

January 2022 – June 2022 // Charleston, SC

- ▷ Collaborate with mobile app development team members and liaise with cross-functional teams to deliver a robust eReader solution.
- ▷ Utilize programming languages such as Dart, Flutter framework, and PHP for app and API development.
- ▷ Design and maintain product support pages and user documentation, including a custom chat application.

Technology Consultant @ Action Antiques and Collectibles

June 2018 – August 2021 // Sevierville, TN

- ▷ Diagnose and resolve technical issues arising during day-to-day operations.
- ▷ Manage and refine software applications for antique cataloging and sales.
- ▷ Serve as the go-to resource for network, software, and hardware-related inquiries.

Personal Projects

Fast React Pizza

August 2021 // Demo: Fast-React-Pizza

Code: github.com/Yellowjersey/Fast-React-Pizza

- ▷ Developed a pizza ordering SPA with geolocation to obtain users current position.
- ▷ Utilized React, Redux and React-Router to create a SPA that gives a pleasant user experience along with being performant.
- ▷ Can Place orders, edit orders, and recall previous orders.

Flutter Dice Game

April 2023 // github.com/Yellowjersey/Flutter_Dice_Game

- ▷ Conducted research and development to explore potential implementation strategies.
- ▷ Employed Flutter framework for image generation and rendering on the screen.
- ▷ Leveraged StatefulWidget to update information and refresh the image widget, reflecting changes in dice outcomes.
